What is the Care Transition Program?

- Established by the Affordable Care Act – Section 3026
- Test models for decreasing avoidable hospital readmissions
- Embedded community based organization within hospital
- Enhanced return to wellness outside hospital

What are the CCTP Outcomes?

- Made CBO and Hospitals better care providers
- Forced us to look at care from a different lens
- Created a table to problem solve
- Vision for a new future
- Decreased avoidable hospital readmissions

The Benefits Hospital/CBO Collaboration

- Helps to identify and break up silos of operation
- Reduces redundancy
- Robust programming for mutually identified patients
- Increased and shared knowledge at both the micro and macro level
- Improved care

Collaborative Efforts – Changing Health Systems

- Forced CBO's to develop business acumen
- CBOs are accepted as part of the return-to-health team
- Hospital to Home Health Alliance
- CMHS Accountable Care Organizations
- CMHS Medical Home
